Dear Kirk,

I can't begin to thank you enough for everything you did at the institute! You were definitely the highlight for all concerned. I will copy the evaluations for you and send them at a later date.

I am going to write another grant to go with the IDEAS grant for next year. I know that you will be busy with your new position but I hope we can have you back again. Maybe we can get you in a video conference setup if travel seems out of the question. I will stay in touch one way or the other.

You did such a good job of integrating your material with everything else. We all learned so much and had such a good time doing so!

Thank you again.

Sincerely,
Jayne Marley
