

## **Publication Summary**

### **Kirk Borne**

I have co-authored and published 134 scientific papers and 132 scientific abstracts since my Ph.D. was awarded in 1983. Of these 134 scientific papers, 38 are peer-reviewed journal articles, 14 are peer-reviewed conference papers, 3 are invited peer-reviewed chapters in books, 12 are peer-reviewed public science papers (2 as the primary author), and 67 are contributed conference papers and scientific reports. In addition, I have co-edited 2 books.

Of the 134 published scientific papers, 51 of them (35 of which are peer-reviewed papers) have been published since 2003 when I joined the GMU faculty as a tenure-track Associate Professor.

As evidence, I present in the following pages copies of my published papers from these three categories:

- Refereed journal articles, with K. Borne as first author or as a significantly major contributor and co-author.
- Refereed publications in peer-reviewed conference proceedings, with K. Borne as first author or as a significantly major contributor and co-author.
- Samples of other significant publications, with K. Borne as first author.
